The 2013 Vermont Home Energy Challenge – Sign Up Today!

Help your neighbors reduce their energy bills by participating in the 2013 Vermont Home Energy Challenge. Efficiency Vermont, in partnership with the Vermont Energy and Climate Action Network, is seeking local organizations to champion the Challenge in their communities and to sign up to participate. Under the Challenge, local organizations will foster public awareness about energy saving opportunities in the home and will set a target of weatherizing 3% of the homes in their community over the course of a year. Towns will then be able to measure their progress toward their goals along with that of other communities in their region and across the state. At the end of the year, towns will be recognized and awarded for the effectiveness of their efforts to encourage participation in their communities. ***Be sure your town participates!*** Sign-up is easy. Go to www.encyvermont.com/homeenergychallenge for details.
