**Peter Gibbs re: Moretown Mountain Road reconstruction** – Peter is consulting engineer from Engineering Ventures, and came here tonight to talk with the Board about questions that came up during the site visit.

Rae asked the board if they wanted him to leave during the discussion since he works for DuBois Construction and intends to bid on the job.

After Peter said the questions to be asked tonight are all public knowledge, the board saw no need in Rae leaving the room.

Peter went on to review an addendum for the bid. Points of interest include:

- The due date for bid acceptance will be extended from 8/28/14 to 9/4/14.
- The 1,000' stretch of the Mountain Road from Route 100B to the junction of Moretown Common Road will be closed to traffic for up to a month during the reconstruction, except for the residents who live directly on the village hill itself.
- The bid addendum will include a detour map.
- The bid addendum will include a summary of line items used for the project.
- Engineering Ventures will oversee the project by being on site once per week, but will not be present to oversee compaction requirements; elevation measurements, etc. Peter wanted the town to be aware of this fact in case they wanted to hire someone like Vt. Testing to do testing.
- If contractors have an onsite problem, they will contact Martin.

Tom moved; seconded by Michelle to approve the bid addendum as presented tonight by Peter. All were in favor.
